QUICK START GUIDE

ADVANCED

OVERSPECS+ SEAL

These aren't just goggles. They're a face-hugging, fog-fighting, impact-blocking beast built to protect your eyes on the job.

1 FOG & SCRATCH-RESISTANT

2 ANSI Z87+ RATED FOR WORK

3 ADJUSTABLE HEADBAND

4 100% UV 380 PROTECTION

5 COMFORTABLE TPR GASKET SEAL

GET THE BEST FROM YOUR GOGGLES

1

PUT 'EM ON

Strap in. Adjust 'til snug, not like a vice. They're fog & scratch-resistant, but they cannot defy physics.

2

KEEP 'EM ALIVE

Wipe gently with microfiber cloth. Cold water only. Store 'em in a case. Scratches suck. Don't get sloppy.

3

KNOW YOUR ZONE

These block jobsite junk, not biohazards. Know what you're up against. **Not for medical use.**

4

GOT GLASSES?

Slide your specs in. They'll fit, unless you rock stadium glasses. Fog's on them, not us—spray if needed.
