GET THE BEST FROM YOUR GLASSES

1

CLEAN LIKE YOU MEAN IT

No T-shirts. No spit-shines. Use a microfiber cloth, cold water, and a little dignity.

2

DON'T BE A LENS KILLER

They're tough, not immortal. Store 'em or scratch 'em—your call.

3

ANGER COMES IN FLAVORS

Dust? Sparks? Death rays? Make sure your glasses can handle your flavor of chaos.
