

**You must read through the following care and use instructions before using your new car pocket handbag holder.**

**1 The NoCry handbag holder**

Made of durable water-resistant PU leather along with polypropylene straps.

**2 Cleaning your handbag holder**

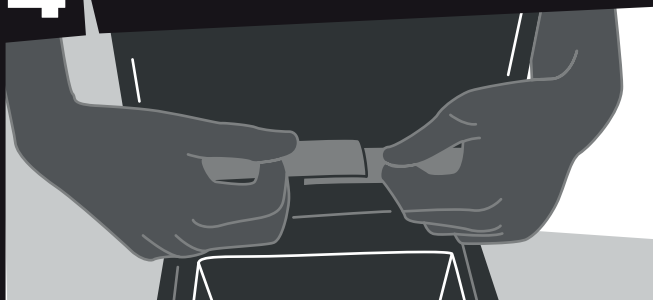

The handbag holder can be cleaned with wet wipes or hand washed using mild detergent. Do not machine wash.

**3 Before Installation**

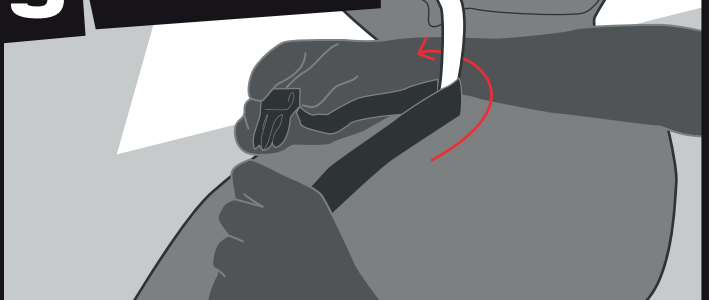

Make sure your seats are lined up evenly. (To use this holder you'll also need an armrest that opens towards the back seat.)

**4 Securing the base**

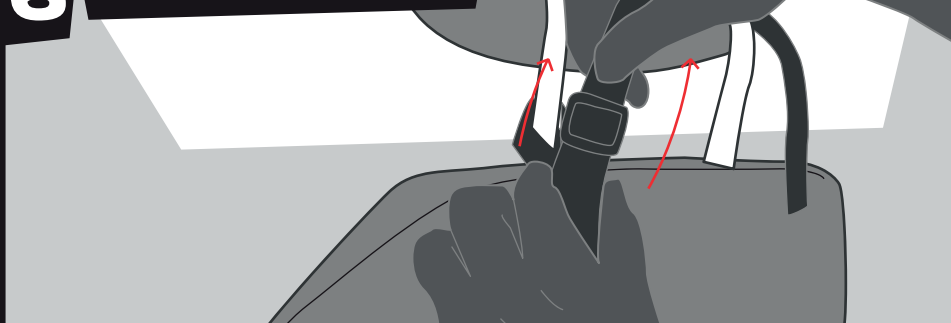

Open the armrest and fasten the hook'n'loop straps. Secure them on the inside and close the armrest.

**5 Securing the straps**

Take the two remaining straps and hook them over the headrests of the front seats and clip them in place.

**6 Adjusting the straps**

Adjust the strap length on both sides so the handbag holder fits between the two seats.
